Recommended for Confidential File for following reasons: This individual was convicted of desertion and fraudulent enlistment by Army General Court-Martial and his approved sentence includes a Bad Conduct Discharge and confinement for one year. He has submitted a statement in which he admits he has been a homosexual since the age of 10. He states he has engaged in these practices with young boys under his control.

Signed

Robert J. Minister
Deputy Scout Executive

The statements of this individual are somewhat suspect, however there is no clear reason why he should claim homosexual tendencies unless that is true. Other information indicates he spent some time in Abilene, Texas.

Dear Ray:-

Am enclosing two confidential reports. Attached to the read sheet of M. K. Boggs is the "Story of his life". All the information including this copy was furnished me by the Judge Advocate of the Second Army. Fortunately he was not registered with us and I would presume that since he has been at Ft. Meade for some time he is not presently registered. However, during the time he spent with the Judge Advocate he claimed to have had Scouting connections and mentioned in his story. Since the Judge Advocate is a friend of ours he thought we should have this information. As he says in his report, he may be untruthful but he sees no reason for it.

The other also an army man, is now in confinement and was presently registered with us

In June of 1948 I was elated to learn that we were moving to New Jersey. My father was going to work at Ft Dix as a civil engineer and we were going to live in Trenton. After we got settled I started going to work on the base with my father on Saturdays. I found that my cigarettes and candy scheme worked just as well with the children of service personnel and best of all we were in a different area each week. Could never get caught, or so I thought.

One day I had enticed with cigarettes a little boy of about eight. We were in the woods and I had his pants down sucking his penis. I happened to look up and there was a sergeant staring at me, evidently the boy's father. I bolted, but he was faster and collared me. I hated him, he was going to have me put in reform school, and I hated him more because of my father's embarrassment. Another spanking, but that was all.

After this incident I started running away from home. At school I organized a German youth movement which was broken up by the:

Hamilton Township Police Dept.
Broad Street
Trenton, New Jersey

I used to love having to go to the juvenile shelter because of the boys I would get to have relations with. So until I was sixteen I was in trouble constantly. I'll backtrack a few years to about '51 when upon the advice of the court my parents started taking me to a psychiatrist:

Dr. Tenney
Mercer County Psychiatric Clinic
Mercer Hospital
Trenton, New Jersey

I was about the most uncooperative little brat that Dr. Tenney had ever had and after going to him for about 2 years he gave up. What conclusions he drew I don't know my mother never told me.

When I turned of age I joined the service, and started looking for satisfaction with the troops. I was duly discharged for enuresis and then started a series of enlistments. For some reason I couldn't bring myself to approach any of the men while I was in the service. However in the summers I worked at boys camps and it wasn't difficult to persuade a young boy into my sleeping bag, wait until he was asleep, and then satisfy myself. In the winters I had a boy scout troop and again persuasion wasn't difficult. I used to go down the highway on my vacations, which I usually took in Florida looking for young hitch hiker to pick up. I remembered then I had run into some cold and hungry how I had picked up a man that had picked me up.

3

One road I didn't come through until I started working at a school for the hearing impaired. There were hundreds of young boys, most of them were in the service and half were in the service. I used to go down the highway and play with his penis and then take him to the "Kitchen" and eat dinner with me. I used to go down the highway and play with his penis and then take him to the "Kitchen" and eat dinner with me.

I could remember seeing some of the boys in the service and I used to go down the highway and play with his penis and then take him to the "Kitchen" and eat dinner with me.
